ODELL MAY ORDER SPECIAL JURY FOR M'AULIFFE CASE.

Governor Ready to Consider a Request That the Investigation Be Taken from the Hands of District-Attorney Jerome.

Cov. Odell may take the McAuliffe case out of the hands of the District-Attorney.

Mr. Jerom's attitude is puzzling, not alone to the police, but to the Governor, who is considering the advisability of cailing an extraor linary Grand Jury and the appointment of a special attorney to take charge of the investigation.

There is also a crisis in the police situation. Commissioner Partridge is so worried over the general police situation that he cailed former Supt. Byrnes in for a conference this morning. Mayor Low is demanding an allaround shake-up among the inspectors and captains in order to break up the "System." District-Attorney Jerem declares that a "shak -up" now would spoil all his plans for exposing the "System." Between the two Col-Partridge is so racked that he called in Byrnes for a consultation.
